

## Education

### Bachelor of Technology

CGPA: 8.22 / 10

Nov 2022 – Aug 2026

Senior Secondary (Class XII – PCM)

Percentage: 96.25%

2019 – 2021

---

## Technical Skills

### Languages

JavaScript, Python, C++, SQL

### Frontend

React.js, Next.js, HTML, CSS, Tailwind CSS, Vite

### Backend

Node.js, Express.js, RESTful APIs

### AI/ML

Large Language Models (LLMs), Prompt Engineering, LangChain, Pandas, NumPy

### Tools & Core Concepts

Git, VS Code, Data Structures & Algorithms, Object-Oriented Programming

---

## Projects

### Employee Management System

Tech: React, Tailwind CSS, Vite

Feb 2026

- Implemented **role-based access control** with separate dashboards for administrators and employees, ensuring secure and scalable application architecture.
  - Designed and integrated **RESTful APIs** for task management operations including create, read, update, and delete functionalities.
  - Built a full-featured task management system allowing users to create, assign, and track tasks with real-time status updates.
- 

### Smart UV Protection Guide

Tech: React, Node.js, Express, Tailwind CSS

Jan 2025

- Developed a full-stack web application with clean separation between frontend and backend using modern development practices.

- Implemented **browser geolocation API** to capture user coordinates and fetch real-time UV index data from an external API.
  - Designed a secure backend proxy layer to **protect API keys using environment variables** and ensure safe third-party API integration.
- 

### **Bikeshare Data Analysis**

Tech: Python, Pandas, NumPy

July 2024

- Processed and analyzed **over 1 million bikeshare trips** using Python data analysis libraries.
  - Identified patterns in peak travel times, popular stations, and demographic insights through statistical analysis.
  - Built an **interactive CLI application** allowing users to filter data by city, month, and day.
- 

### **Achievements and Interests**

#### **Academic Achievement**

- Selected for a **prestigious international scholarship program** among more than 50,000 applicants for academic excellence.

#### **Interests**

- Sports activities including running and football.
- Reading books related to technology, psychology, and history.
